## ENOSI 2005

### VINTAGE

The 2005 vintage can be summed up as limited quantities of well-balanced wines. As a result of dry weather in June and July, the grapes remained small. At the end of August everything suggested that it would be one of the outstanding vintages of the century. A relatively rainy September resulted in a good vintage with a characteristic mineral content.

### VINIFICATION

The Riesling was produced by pressing whole grapes and fermenting them in stainless steel vats. In the case of the Sauvignon, the must was placed into barrels for fermentation. To make the Gewürztraminer, the grapes were macerated for eight hours prior to pressing, and the must was likewise placed into barrels. All of the wines were stored for eight months on the yeast before beginning the assemblage in May. The wine has been in the bottle since late-May.

### CONDITIONS DURING THE HARVEST

Unstable autumn weather, combined with late ripening, necessitated repeated harvesting. As a result of rigorous selection, the quantity of grapes was very small, but the result was a harvest of healthy and perfectly ripened grapes.

### LOCATION / SOIL

Höfl unterm Stein in Söll near Tramin (Sella / Termeno), at an elevation of 480 to 550 meters above sea-level; southeast slope. The soil is a rich, loamy calcareous gravelly substrate on which the grapes are grown on both 30-year-old pergolas and 10-year-old wire frames. The yield is extremely low (30 hectoliters per hectare), but quite unique.

### COMMENTS BY OUR OENOLOGIST

The wine presents a bright, golden yellow with green reflections. The nose is evocative of peaches and elderberry blossoms with fine citrus notes. On the palate, it reveals a lively flavor full of finesse, with subtle acidity and hints of mineral.

---

COMPOSITION:	<i>50% Riesling</i>
	<i>35% Sauvignon blanc</i>
	<i>15% Gewürztraminer</i>
YIELD:	<i>50 hl/ha</i>
ALCOHOL:	<i>13.5 %</i>
ACID:	<i>6.8 g/l</i>
